GEF-6

GEF 6th replenishment

New Climate Change Strategy

SBI40 GEF side-event

Franck Jesus & Rawleston Moore
GEF Climate Change Team
7 June 2014

Menu of the day

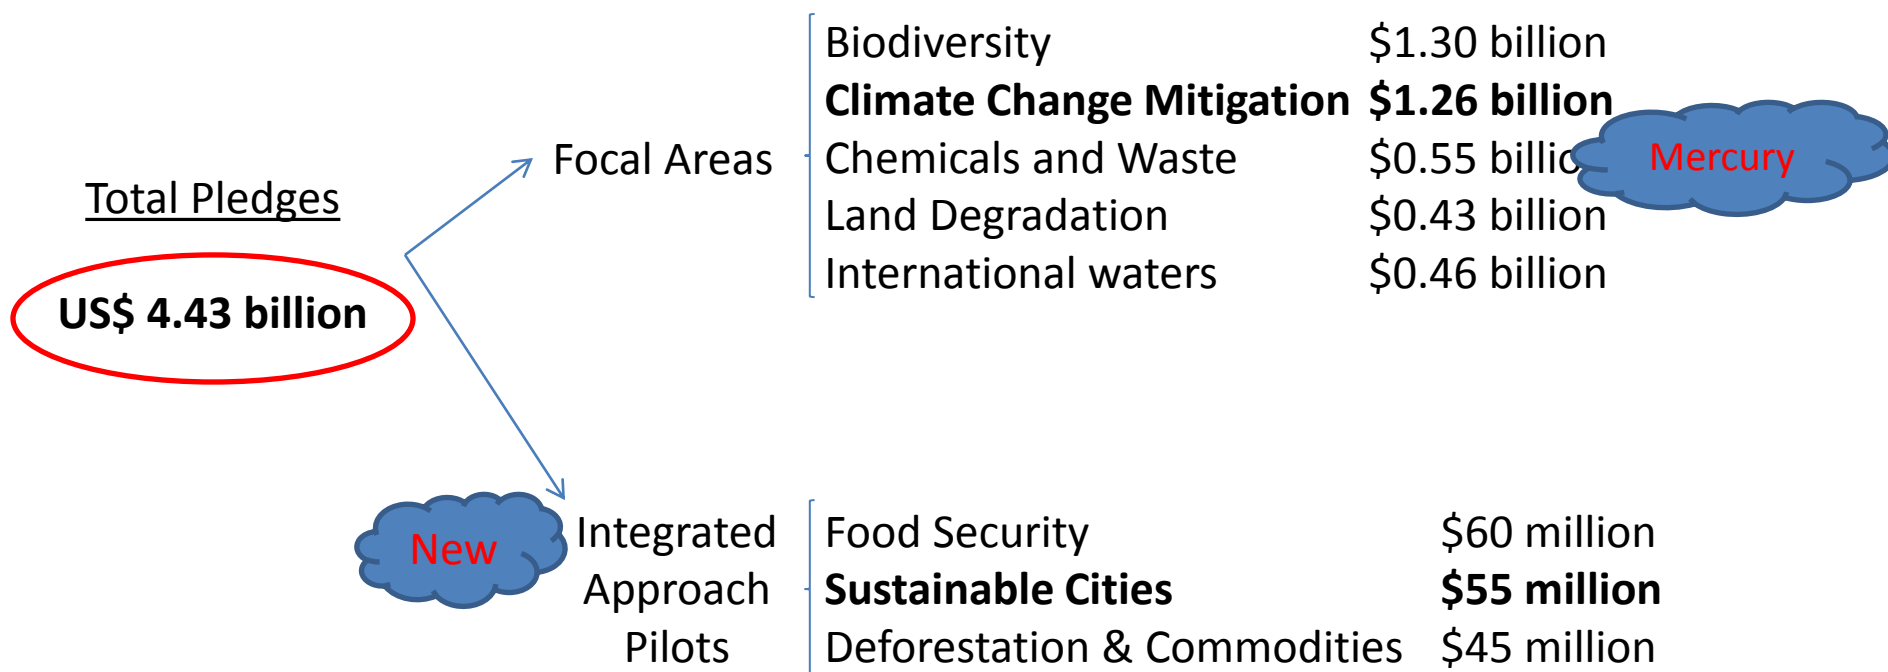

For the next four years (2014-2018)

1. Results of the GEF TF replenishment
2. The GEF TF Strategy for GEF-6
 - Climate Change Mitigation
 - Integrated Approach Pilots
3. The LDCF/SCCF Strategy for 2014-2018
 - Climate Change Adaptation

GEF's Unique Value for Climate Financing

1. Facilitating innovation & technology transfer

Assisting developing countries in defining and implementing mitigation measures towards 2015 agreement

2. Catalyzing systemic impacts through synergistic multi-focal initiatives

3. Building on Convention obligations for reporting & assessments towards mainstreaming

GLOBAL ENVIRONMENT FACILITY
INVESTING IN OUR PLANET

GEF-6 Climate Change Mitigation Strategy

1. Promote innovation, technology transfer, and supportive policies and strategies

- Program 1: Low carbon technologies and mitigation options
- Program 2: Innovative policy packages and market initiatives

Goal:

2. Demonstrate mitigation options with systemic impacts

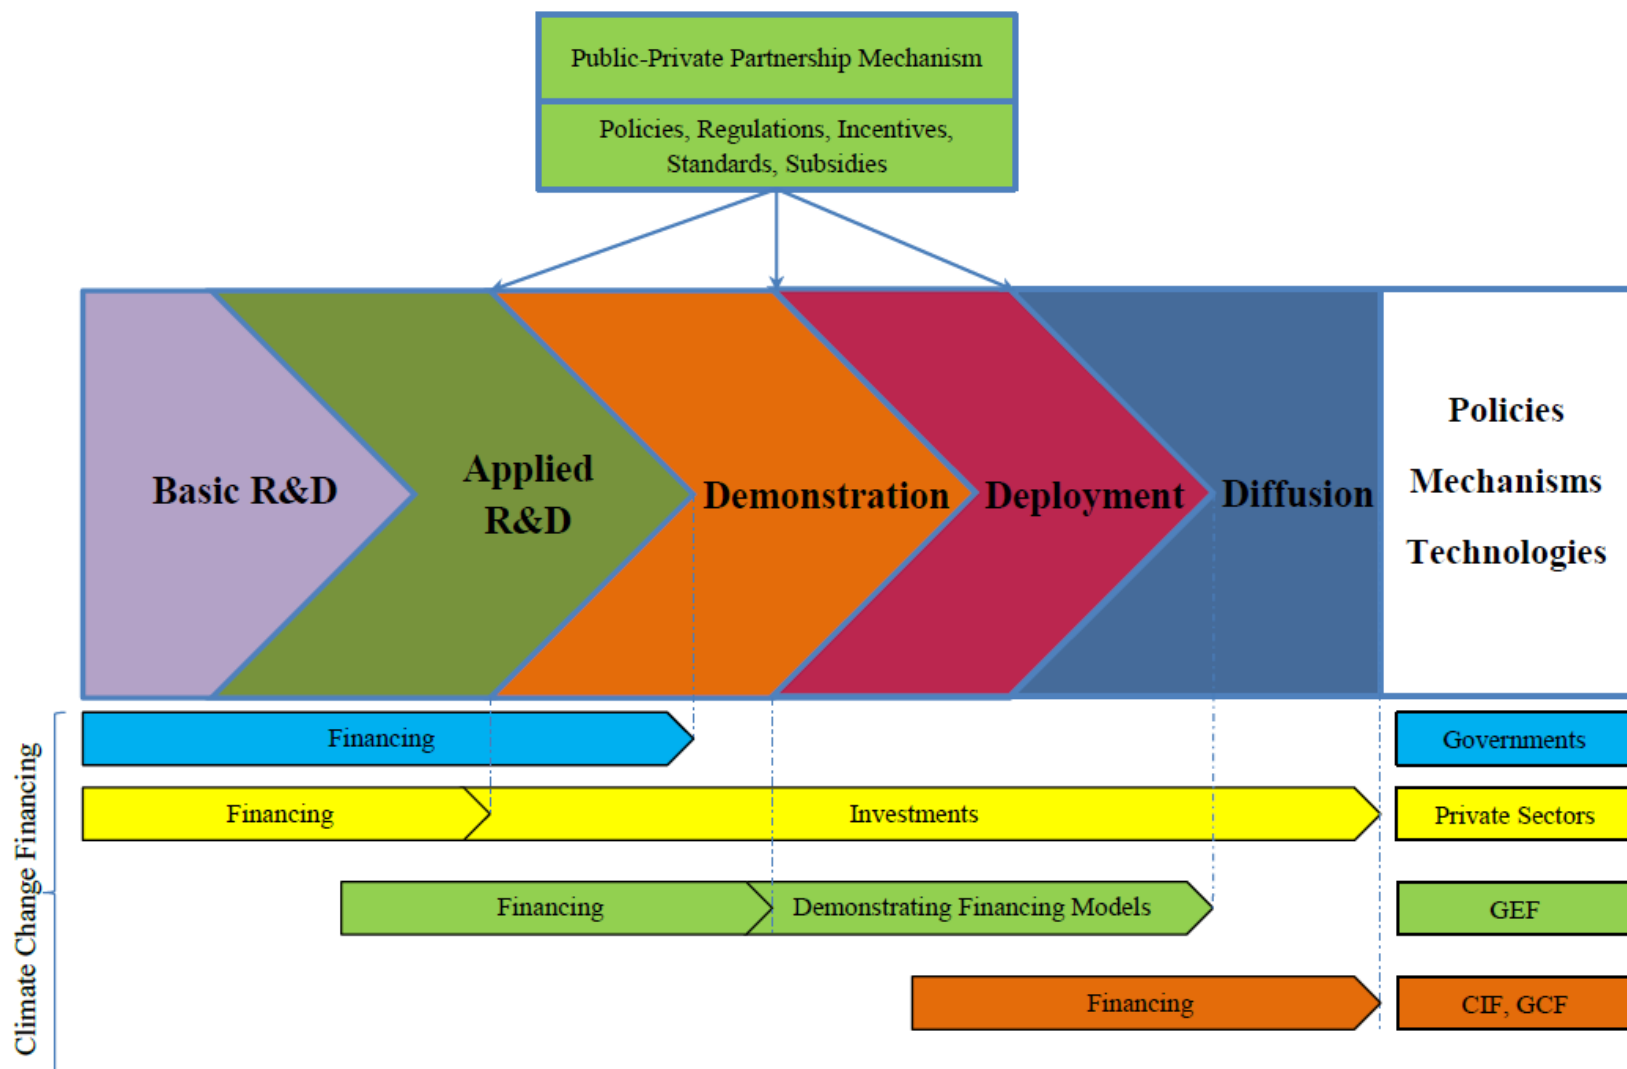

- Program 3: Integrated low-emission urban systems
- Program 4: Forests and other land use, and climate smart agriculture

To support developing countries and economies in transition to make transformational shifts towards low emission development path

3. Foster enabling conditions to mainstream mitigation concerns into SD strategies

- Program 5: Convention obligations for planning and mitigation targets

GEF's Role in Evolving Climate Financing

GEF-6 Integrated Approach Pilots (IAP)

GLOBAL ENVIRONMENT FACILITY
INVESTING IN OUR PLANET

GEF-6 Integrated Approach Pilots

- 
- 
- Taking Deforestation out of Commodities Supply Chain
 - Fostering Sustainability and Resilience for Food Security in Sub-Saharan Africa
 - **Sustainable Cities**

- 
- 
- ✓ Tackling underlying drivers of environmental degradation
 - ✓ Deliver global environmental benefits beyond single GEF focal area
 - ✓ Time-bound nature of concrete impact
 - ✓ Relevance for evolving post-2015 agenda
 - ✓ Innovative way to support action at multiple levels based on partnership

GEF-6 Integrated Approach Pilots

**Fostering Sustainability
and Resilience for Food
Security in Sub-Saharan
Africa**

\$60 million

- \$50 million incentive mechanism
- \$10 global/regional

Sustainable Cities

\$55 million

- \$45 million incentive mechanism
- \$10 global/regional

**Taking Deforestation out
of Commodities Supply
Chain**

\$45 million

GLOBAL ENVIRONMENT FACILITY
INVESTING IN OUR PLANET

GEF-6 Opportunities for Sustainable Cities

1. Sustainable Cities Integrated Approach Pilot (IAP)
2. Climate Mitigation Focal Area Project/Program
3. Multifocal Project/Program
 - ✓ mitigation + adaptation
 - ✓ mitigation + international waters
 - ✓ mitigation + chemicals
 - ✓ etc etc

GLOBAL ENVIRONMENT FACILITY
INVESTING IN OUR PLANET

Sustainable Cities IAP Components

Recognizing need to address urbanization as key driver of global environmental degradation and opportunity

Sustainable Cities IAP Resources

\$45 million

incentive to STAR
allocation (1:1)

\$45 million

STAR allocation

\$10 million

Support coordination,
experience sharing,
south-south
cooperation,
integrated across
boundaries, M&E,
etc.

**Total GEF resource:
at least \$100 million, plus
co-financing**

1. Country ownership of national projects, implemented through 1:1 incentive mechanism
2. Regional/global coordination and sharing of information
3. Co-financing

Key questions and answers

What modality?

- Likely a **programmatic approach**, with a lead Agency and number of GEF Agencies participating in inter-Agency team

What timeframe?

- Discussions and concept development to start now
- Submission to GEF Council for approval **during first year of GEF-6**
- Pilot, subject to review by 2018 to derive findings and recommendations

How many countries/cities?

- **Up to 20 countries/cities**, to be discussed
- Ceiling for incentive access per country to be established

Indicators and how to track progress?

- Develop **harmonized performance indicators** including global environmental benefits to track achievements, replacing focal area tracking tools/indicators
- All projects within the framework use and track these indicators

Climate Change Adaptation

Least Developed Countries Fund (LDCF)

Special Climate Change Fund (SCCF)

GLOBAL ENVIRONMENT FACILITY
INVESTING IN OUR PLANET

GEF-6 Adaptation Programming Strategy

GOAL →

To increase resilience to the adverse impacts of climate change in vulnerable developing countries, through both near- and long-term adaptation measures in affected sectors, areas and communities; **leading to a reduction of expected socio-economic losses** associated with climate change and variability.

Objectives →

- 1) Reduce the vulnerability of people, livelihoods, physical assets and natural systems
- 2) Strengthen institutional and technical capacities
- 3) Integrate climate change adaptation into relevant policies, plans and associated processes

GLOBAL ENVIRONMENT FACILITY
INVESTING IN OUR PLANET

Strategic Programming Pillars

Integrating climate change adaptation into relevant policies, plans, programs and decision-making processes

Expanding synergies with other GEF focal areas

LDCF at a glance (June 5, 2014)

Pledges:

\$907.2 M (blue)

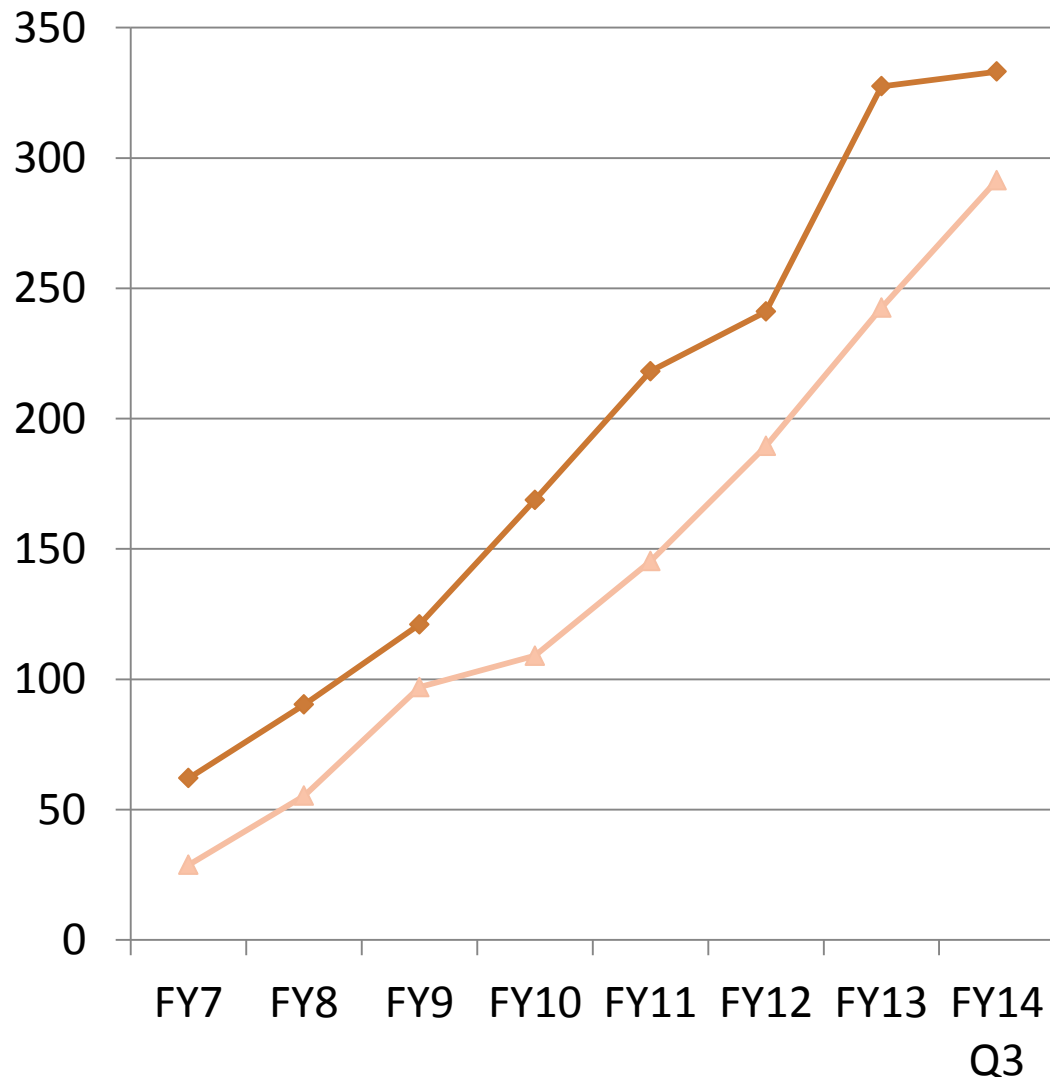

Received
contributions:

\$831.6 M (red)

Funding approvals:

\$837.2 M (green)

SCCF: pledges and approvals

- Total cumulative pledges, March 31, 2013: **USD 333.11 million**
- Total received contributions: **USD 299.11 million**
- SCCF Adaptation: **USD 240.99 million for 57 projects**
- SCCF Technology Transfer: **USD 55.48 million for 11 projects**
- Total co-financing: **USD 2.30 billion**
